NEXT GENERATION LINERS & COVERS

The BAY-LINE™ family of products delivers unique solutions for lining and cover applications in multiple industries to separate, protect, and contain solids and liquids.

FEATURES & BENEFITS:

- Available in multiple color combinations and various thickness and strengths
- Protection against various climates
- High and low-density PE coatings provide superior chemical and oil resistance
- High strength-to-weight ratio allows for ease of handling
- Proven product with over 10 years of market usage
- Made in North America

Covers & Liners

APPLICATIONS:

- Irrigation & canal liners
- Interim landfill caps
- Golf course & landscape ponds
- Fire reservoir ponds
- Settling basins
- Potable water supply
- Soil remediation
- Barriers, blankets, and curtains

PRODUCTS:

PRODUCT	MATERIAL	COLOR	APPLICATION	SPECIFICATION
COVERS				Unit Weight (ASTM D3776)
SS04	HDPE tapes, coated 1 side w/ LDPE	Orange	Light tarp	2.3 oz/yd ² (78.3 g/m ²)
TSSB1W2	HDPE tapes, coated 2 sides w/ LDPE	Black/white	Construction & General Tarps	2.8 oz/yd ² (93.3 g/m ²)
TSSN1N1	HDPE tapes, coated 2 sides w/ LDPE	Natural	Construction & General Tarps	2.7 oz/yd ² (93 g/m ²)
TPPB1W3	HDPE tapes, coated 2 sides w/ LDPE	Black/white	Construction & General Tarps	3.5 oz/yd ² (118 g/m ²)
LINERS				Thickness* (ASTM D5199)
LC-11	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	11 mil (279 μm)
LC-12	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	12 mil (305 μm)
LC-14	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	14 mil (356 μm)
LC-16	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	16 mil (406 μm)
LC-20TL	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	20 mil (508 μm)
LC-30	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	30 mil (762 μm)
LCS-40	Woven black HDPE scrim	Black	Liner, Geotextile, Covers	40 mil (1061 μm)
