

Matrix XL™

.....

MATRIX XL BREATHABLE ROOF UNDERLAYMENT

Matrix XL delivers a combination of strength and breathability that protects gomes against trapped moisture and other costly damage.

FEATURES:

- Breathability allows moisture to escape through the roofing system
- UV stabilized underlayment outperforms all felt products (600% greater tear strength than standard #30 felt)
- Lightweight (one-third the weight of #30 felt)
- Proven product with over 10 years of market usage
- Safe, walkable, and slip-resistant surface
- Made in North America
- Custom printing and private label available

Building & Construction Materials

PRODUCT PROPERTIES:

- Breathable
- UV Stabilized
- Lightweight
- Good Walkability
- Exceptional Strength
- Certified: ICC-ES-ESR 2438

PRODUCT SPECIFICATION:

PROPERTY	IMPERIAL	METRIC	TEST METHOD
Unit Weight	5.4 oz/yd ²	183 g/m ²	ASTM D3776
Widths	54 in	1372 mm	-
Tensile Grab Strength (warp/weft)	137 lbf/49 lbf	610 Newtons/220 Newtons	ASTM D751
Trapezoid tear strength (warp/weft)	49 lbf/36 lbf	220 Newtons/160 Newtons	ASTM D4533/D4851
Water Shower	PASS	PASS	ASTM D48
Water Ponding 24 hrs	PASS	PASS	ASTM D751 sec 48.1.269
Vapor Permeance	>10 Perms	>10 Perms	ASTM E-96 Proc. A
Water Resistance	PASS	PASS	ASTM D-779

* Includes force to shift tapes - Tear may be crosswise to direction of force. These are typical values and are not intended as limiting specifications.

FABRENE'S MATRIX LINEUP:

Matrix™ VIE

Protected Membrane
Roofing System

High density polyethylene tapes and coated on one side with low density polyethylene.

Matrix XL™

Premium, Breathable Roof
Underlayment

Breathable membrane laminate made from polypropylene nonwovens.

Matrix UL™

Synthetic Roofing
Underlayment Membrane

Polypropylene nonwoven, coated on two sides with polyethylene.
